```
1      NODE      MACRO      NAME
2                IRP        S,<'LEFT','DATA','RIGHT'>
3      NAME&S    DW         0
4                ENDM                        ;; END OF IRP
5                ENDM                        ;; END OF MACRO
```

(a)

```
                 NODE       X

                  ↓

        XLEFT     DW         0
        XDATA     DW         0
        XRIGHT    DW         0
```
